## **Education Report: A comparison of the 2017/18 Statement of Performance Expectations performance measures against the 2018/19 performance measures**

### **Purpose of Report**

---

1. To provide a comparison of the 2017/18 Statement of Performance Expectations (SPE) performance measures against the 2018/19 performance measures.
2. This report will be proactively released at the end of June.

### **Background**

---

3. You have asked for a comparison of the 2017/18 SPE performance measures against the 2018/19 performance measures. Attached is a table that presents this information. The information excludes the 29 performance measures that have not changed. We have used four categories for classification in the comparison:
  - a. Removed (as agreed with Ministry of Education and Audit NZ as they were activity measures and do not reflect service performance)
  - b. Changed performance measure (minor wording changes to more accurately reflect the calculation of the measures)
  - c. Changed performance standard (to provide stretch targets and/or reflect changes in the current operating environment)
  - d. New performance measure (introduced to better reflect our current operating environment).
4. For each of the categories above NZQA has provided a table in the attached document. Sixteen performance measures were removed, two performance measures were changed, nine had performance standard changes, and two new performance measures have been introduced.
