27 February 2019

Official Information Act Request

Thank you for your request of 15 January 2019 under the Official Information Act 1982, seeking the following information:

The number of students who have applied for a reconsideration of their grade over the last 5 years. Broken down by:

-year

-the number of standards applied for -the name of the standard -whether the application was successful in improving the student's grade or not

I have attached an excel file with the information covering your request. The information is presented in four worksheets in the file, with definitions included.

To provide some context around the reconsideration process, I have included some background information below.

- Following the release of NCEA and NZ Scholarship results, a student's answer booklets or portfolios are returned to them.
- NZQA publishes the cut scores by NCEA and NZ Scholarship which provide an indication to a student of how close their result is to the boundary for the next grade. This information may help inform a student's decision on whether to apply for a reconsideration.
- If a student thinks one or more of their answer booklets or portfolios have not been assessed (or 'marked') correctly, they can apply for a reconsideration. A reconsideration involves reassessing all responses in the answer booklet or portfolio using the original assessment schedule, in other words, re-marking it. It also involves checking mechanical processes, like transferring grades.
- A fee of \$20.40 per standard (NCEA) and \$30.70 per standard (NZ Scholarship) is payable for a reconsideration. This fee is refunded where an application is successful.
- A successful application is one in which there is a change of grade; a change in the total score is not considered to be successful if it does not result in a change of grade.
- In 2017, there were 10,152 applications from 4,870 students of which 1,771 applications were successful. This equates to 0.2% of the total of just over one million externally assessed results.

As part of the commitment to open and transparent government, NZQA is proactively releasing responses to Official Information Act requests which are of public interest. NZQA will be publishing its response to your request on its website in March 2019. Your name and contact details will be removed before publication.

If you require further assistance or believe we have misinterpreted your request, please contact n the Office of the Chief Executive, email @nzqa.govt.nz or telephone (04) 463 \$9(2)(a)

If you are dissatisfied with our response, you have the right, under section 28(3) of the Official Information Act 1982, to lodge a complaint with the Office of the Ombudsmen at <u>www.ombudsman.parliament.nz</u> or freephone 0800 502 602.

Yours sincerely

Karen Poutasi (Dr) Chief Executive

PRS-2763 OIA - Reconsiderations

Psychometrics, Reporting and Statistics, Data & Data Analysis, NZQA

Request:

The number of students who have applied for a reconsideration of their grade over the last 5 years.

Broken down by:

-year

-the number of standards applied for

-the name of the standard

-whether the application was successful in improving the students grade or not

Requestor:

s9(2)(a)

Includes:

Under 'No. of students applied by year':

The distinct number of students who applied for at least one of their external standards to be reconsidered by year

Under 'Students by No. of stds':

The number of students over the last 5 years by the number of standards they applied for - eg. In 2013, 1906 students applied for reconsideration of one standard while 13 applied for reconsideration of 10 or more standards

Under No.of applications by standard:

The number of applications (over 5 years) for reconsideration for each standard name Under Success of applications:

The total number of applications by year and the number of successful applications for reconsideration out of this number.

Definitions:

A successful reconsideration is one that improves a student's grade. Students' grades cannot go down in the reconsideration process

For more information on the reconsideration process see www.nzqa.govt.nz/ncea/ncea-results/reviews-andreconsiderations or pages 86-7 of the Annual report on NCEA and Scolarship Data and Statistics (2017) May 2018 available from the NZQA website at www.nzqa.govt.nz/studying-in-new-zealand/secondary-school-andncea/find-information-about-a-school/secondary-school-statistics/.

Notes:

For the information by standard name (standard title) note that a standard can have multiple titles over different years depending on version. Also the standards (and standard titles) associated with each subject's external examinations can change

Regarding success of applications. Students can make an application for each external standard. Thus a student can make more than one application. However success of applications is on a standard by standard basis - thus the total number of applications and the number of successes is supplied.

Note that the data may be subject to change due to normal business processes and differ from previously published data depending on when it was extracted. This data was extracted from a daily snapshot of the live database.
