Kete Manarua Digital Submission

KETE

Kete Manarua is a collection of student evidence which has been prepared for digital submission and is required to achieve the Achievement Standard.

We are offering Kete Manarua in response to feedback that we received from schools who piloted the Achievement Standards in recent years. We want to support the autonomy of teaching and learning for teachers and students. We also want to support the gathering of evidence in natural occurring assessment settings throughout the year.
