[National secondary examinations timetable](#)

Format of the assessment

There will be three open-ended questions. Some questions may have long passages to read and consider. Resource material, such as written text, images, and data, will be provided for each question. In their answers, candidates will be expected to integrate this resource material into their own thinking. Candidates will be required to answer ALL questions.

Content / context details

Questions will be asked within a variety of contexts, some of which may be unfamiliar.

Candidates should be familiar with overarching cycles, such as the water cycle, the carbon cycle, and the rock cycle, as integrating aspects of the curriculum.

Candidates should have a broad knowledge of tectonic plate theory, the geology of Zealandia, and astronomy, such as the life cycles of stars and the formation and key features of objects in our solar system.
