Application of knowledge	<p>Sophisticated integration and abstraction of concepts and ideas. (This is inclusive of, but not limited to, appropriate use of issues, theories, practices, and learning experience.)</p> <p>Exceptional depth of understanding and a balanced response (theory and practice).</p> <p>Complex syntheses of highly developed knowledge, concepts, and ideas.</p> <p>Divergent ideas and independent conclusions related to future actions to enhance well-being.</p>		<p>Integration and abstraction of concepts and ideas. (This is inclusive of, but not limited to, appropriate use of issues, theories, practices, and learning experience.)</p> <p>Theoretical and practical balance, although limited viewpoints may have been considered. (There is sufficient depth in some areas.)</p> <p>Logical syntheses of highly developed knowledge, concepts, and ideas.</p> <p>Includes coherent conclusions related to future actions to enhance well-being.</p>		<p>Minimal integration and abstraction, and a lack of development of concepts and ideas.</p> <p>Possible imbalance between theory and practical, viewpoints are limited, breadth over depth. Covers too many points inadequately, or may have a narrow focus.</p> <p>Knowledge, concepts, and ideas are not logically synthesised.</p> <p>Future actions may have been addressed, but lack relevance and / or cohesion.</p>		Many unsubstantiated assumptions and generalisations.

Note: Concepts are inclusive of the HPE underlying concepts (hauora, socio-ecological perspective, attitudes and values, and health promotion), and topic-specific concepts. The candidate draws from their own learning experiences, which reflects an understanding AND application of the four underlying concepts of the Health and Physical Education learning area. This may be evidenced through the collection of primary data and / or personal reflections.
