QUESTION ONE: *Comprar regalos de Navidad* (Buying Christmas presents)

Read Text A on page 2 of the resource booklet.

(a)   Why is now an ideal time for Carla to buy her Christmas presents? Explain using evidence from the text.

Using evidence from the text a good time for Carla to buy her Christmas present now is because she has two months until Christmas and in November she needs alot of time to spend for college

(b)   Using information from the text, fill in the boxes below.

Person	Present	Place of purchase	Reason for choice of present
Younger brother	sweet treats	chocolate shop	he likes to eat lots of treats
Older sister	Gafas del sol	farmacy	
Parents	two entries for a dance preformance	off her friend	because they like to out of the house together
Uncle	White wine	central commertial	because he said he wants one
Best friend	two books	library	because she is always reading books and magazines

QUESTION TWO: *Nuestra ciudad* **(Our town)**

Read Text B on page 3 of the resource booklet.

(a)   According to the text, what are the disadvantages of living in Mexico City and Pakotai? Fill in the boxes below.

Disadvantages

Mexico City	Pakotai, New Zealand
A disadvantage is that in Mexico the streets are full of cars and buses	A disadvantage is that there is like 4 seasons in one day and Hemi prefers it to be hot.
A disadvantage is that the life is so crazy and full on	A disadvantage is that Hemis friends wont go to the sea becuase its too far away.
A disadvantage is that there is no beaches around	
A disadvantage is that the air is polluted	

(b)   Which place would be best for a teenager to live, Mexico City or Pakotai? Justify your opinion based on the information in the text.

Although there are many disadvantages in Mexico, the best place for a teenager to live giving information from the text would be Mexico. This is because it says there is not much to do in Paktai for young people "no hay mucho que hacer para los jovenes". In Mexico there is alot more going on and could be more entertaining. There are lots of busses that we could use to go around. There is an arena that has heaps of animals and most teenagers tend to love animals. In Mexico you can visit the blue house of Frida Kahlo, there is also a antiqe cathedral that is 400 years old. In New Zealand there is alot to do but not much for the young.
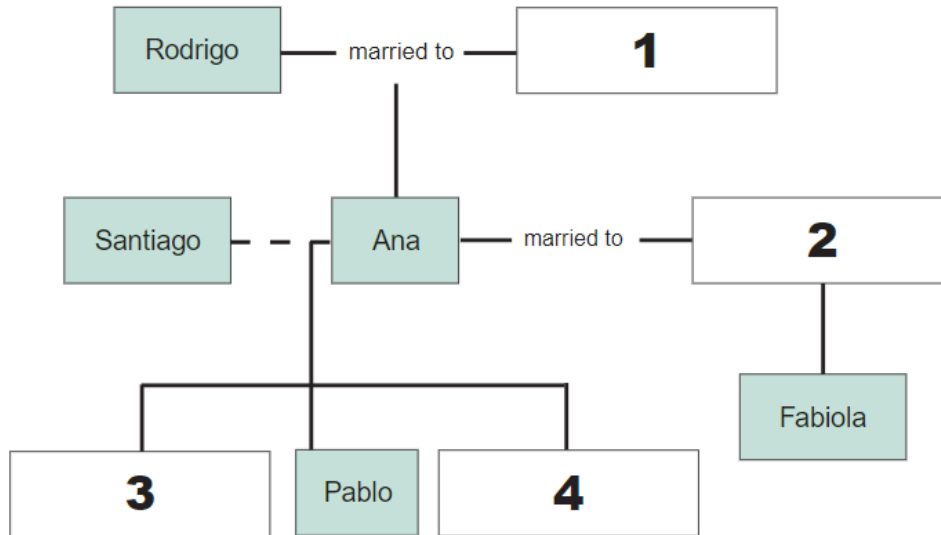

QUESTION THREE: *Mi instituto* (My school)

Read Text C on page 4 of the resource booklet.

(a)   How useful has learning English been for Alejandro?

(b)   Would you recommend Sam go to Spain for a year to study? Justify your response using evidence from the text.

QUESTION FOUR: *Mi familia* **(My family)**

Read Text D on page 5 of the resource booklet.

(a)   In the spaces provided below the diagram, fill in the gaps of the family tree with the names of the people based on the text.

1. Rita
2. Pepe
3. Mariana
4. Seb

(b)   Which sibling does Pablo get along with best? Give evidence from the text to support your answer.

The sibling Pablo gets alonge with the best with evidence from the text is Seb, this is because he tells us this is his favourite sibling. In relation to the text I feels this because he says when they were young they spent time fishing together and liked it, this tells us they have chemestry. Although they dont see each other often as he lives with his dad in another city he says spending time with Seb is pretty good.

(c)   Do you think Pablo enjoys being part of a blended family? Justify your answer using information from the text.

I think with evidence from the text that Pablo doesnt mind being part of a blended family, this is because he doesnt nessasarily say he doent like it and he tells us that he likes doing curtain things or hobbies with people of his family. He says that he lives with his mum and Pepe (her husband), His grandparents Rita and Rodrigo, his sister Mariana and his step brother Fabiola. He doesnt discribe that living situatioons with them altogether is bad and doesnt mention he misses his dad that he curently doesnt live with.

Subject	Spanish RAS			Standard	91974	Total score	10

Q	Grade score	Annotation
1	A3	General gist of the text, e.g. she has free time now to buy gifts. Each gift is correct. Some information seems possibly guessed or misunderstood, but overall, this response shows understanding of some of the points. More correct information regarding place of purchase would be needed for a more secure A / 04.
2	A4	The main points are understood for each of the negatives, e.g. cars and buses, busy, and pollution. They also identify many of the positives of Mexico such as the cathedral, the animals, and Frida Kahlo's house. While some of these ideas are beginning to be linked, e.g. teenagers like animals, some extra details such as his friends not going to the sea as it is too far away are misunderstood and other justifying details are missing or incorrect preventing this from achieving at 05.
3	NR	
4	A3	Basic details of Seb living in another city with his dad and getting along well are provided, and that he does different activities with his siblings means he enjoys being part of a blended family. This response is very limited in detail and therefore would require detail about what activities he does with his other siblings for a more secure A.
