The world of designers is left for us to explore. It is our adventure and that adventure starts today in a design journey of a life time so come and see our speck home full of great ideas for further design. Actual use of the extranet shares many properties with intranet use: the users will be using the extranet as a major part of their everyday job, so it will be possible to use specialized language and relatively complex interactions. It may even be reasonable to assume some amount of training on the part of the users, since they will be motivated to improve the efficiency of their own business by making better use of your extranet. The training needs and the complexity of your extranet can not be too demanding, however, since you normally cannot assume that extranet users are dedicated to the use of your particular design and nothing else. A typical extranet user may be a corporate purchasing agent who may need to deal with your extranet as well as the extranets of, say, 50 other companies where he or she has placed orders. Your extranet must be fairly easy to use if this purchasing agent is to remember its
